7 October 1968

MEMORANDUM FOR: Executive Director-Comptroller

SUBJECT: Transition Act

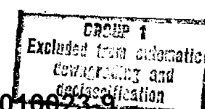

With regard to the morning meeting action item of 1 October 1968 on Agency action under the Transition Act, I have done a paper on the statutory background of the Agency for John Bross to be included in his over-all survey of the intelligence community. The only other item I can think of, with which we are concerned, is the Agreement between the Director and the Deputy Secretary of Defense concerning responsibility for major support items, such as aircraft provided for 303 Committee-approved projects. This could be mentioned in an over-all briefing or we could bring it up as an independent item on some appropriate occasion. I feel the latter might be the best course of action.
